

Jamalong sessions with Carrie & Mowkee

These jam sessions work alongside The Improvise Approach.

To get started straightaway, follow the instructions here, to keep your music space in tune.

There is a 20 minute training video available on my website and from Leicestershire Music Hub.

These Jamalong sessions allow students time and space to improvise harmoniously with each other, within a repeated musical framework.

The joy of always being in tune with each other, helps develop confidence and independence.

Each song has a picture and title/ theme to encourage easy recognition and imaginative play.

Traditional musical instruments are often very difficult for our PMLD students to access. By using iPads/ iPhones with the ThumbJam app and optimum positioning for the needs of that student, they have access to use any part of their body, to play a wide range of musical instruments and have more control over what and how they play.

It's amazing to see the motivation that is created when a student realises they can play beautifully! It helps develop their hand-eye coordination, listening and communication skills, turn-taking...and so much more.

The well-being we all experience when are able to access music, must be accessible to everyone.

It's our aim, that these sessions will help students/ staff/ carers/ parents....everyone, to make free, improvised, musical choices and give them the time to find their "inner muso".

The best app is **ThumbJam** IOS app £8.99 - <https://apps.apple.com/gb/app/thumbjam/id338977566>

Alternative FREE music-making apps:

AUMI - works in a similar way to a Soundbeam, using the iPad camera - <https://apps.apple.com/gb/app/aumi/id647002265>

Harp Real (plays in C major) - <https://apps.apple.com/gb/app/harp-real/id1481348599>

iGrand Piano (Free for iPad) - <https://apps.apple.com/gb/app/igrand-piano-free-for-ipad/id562914032>

Sensory Mica/ Vocalisation - <https://apps.apple.com/gb/app/sensory-mica-vocalization/id1114480218>

To keep your music space in tune

iPADS & THUMBAM APP SET TO C MAJOR PENTATONIC SCALE

Choose your instrument sound (see suggestions for each song).

**ALL TUNED PERCUSSION chime bars, bells etc.,
SELECT THE NOTES
C D E G A
...and plenty of pots, pans, spoons, rice shakers and wrinkly tinkly things.**

Sensory Speak Up/ Vocalise - <https://apps.apple.com/gb/app/sensory-speak-up-vocalize/id655636902>
